Dear Andries

I would like to thank you for your presentation and talk to the Platinum Assistant Network SA members. It is rare to find a speaker who connects with the entire audience but you did exactly this! All of our evaluations had positive comments and reviews from your energetic presentation. You provided a burst of fresh air and re-energized our coffee & conversations' attendees.

*What resonates with most of the PAs is that we can all learn the mastery of our unique power to live our life's to its fullest potential!
The process of self-discovery to learn the techniques required will stay with us always.*

We hope that you will want to be involved in our events in years to come. We were pleased to have your participation in these unique coffee & conversations sessions, and we thank you for your valuable contribution.

Warm PAN-SA wishes

Susan Engelbrecht
Director & Co-Founder
